Date: Wednesday 20 - Thursday 21 October 2021
Friday 22 October 2021 (Optional Day 3 to become an accredited FlexIT group facilitator)

Time: 10.00am - 4.30pm AEST ONLINE

Cost

2-day program
\$550 includes
GST.

3-day program
\$675 includes
GST.

*Day 3 only
\$175 includes
GST.

(*Please note: to attend Day 3 only, attendees must have previously completed Day 1 and Day 2 of the FlexIT program in 2020)

Overview

This program will be delivered online via Zoom conferencing.

The FlexIT program and principles reflect practice for the management of type 1 diabetes and are readily utilised by experienced clinicians at the Baker Institute. The interactive two-day program will focus on teaching flexible insulin therapy principles for use with clients in individual consultations.

The optional third day of this program will focus on providing the skills and teaching resources to become an accredited FlexIT group program facilitator, and obtain a licence to deliver the Baker FlexIT group in your setting.

The accredited FlexIT program will incur an annual licence fee of \$150 which is complementary for the first year.

Topics will include:

- **How to calculate, use and adjust:**
 - Insulin to carbohydrate ratio
 - Insulin sensitivity factor in relation to diet, exercise and blood glucose levels (BGL)
- **Advanced carbohydrate counting including use of current Apps and resources**
- **Identification and management of patterns of hypoglycaemia and hyperglycaemia**
- **Case study analysis of example FlexIT BGL and food diaries**

ADEA accreditation is currently pending.

For APDs: This program can be considered for up to 5 professional development hours per day for Day 1 and Day 2, provided it is relevant to your DA learning goals.

Baker Heart and Diabetes Institute does not make any warranty or representation express or implied in relation to:

- An individual's suitability to participate in the FlexIT training program;
- An individual's suitability to deliver the FlexIT program in their health service; or
- Any participant satisfaction with the FlexIT program.

It is a matter for the individual's employer to determine whether or not to implement the FlexIT program in their health service and to ensure that the personnel providing the program at their health service have the necessary skills and expertise.
